

Master Slider

Master Slider is a premium **image and content slider** with **super smooth hardware accelerated transitions**. It supports **touch navigation** with **pure swipe gesture** that you have never experienced before. It's a truly **responsive** and **device friendly** slider which works perfect in all major devices.

The screenshot displays the Master Slider interface. The main preview area shows a blue t-shirt with the text "IAM BLUE" on it. To the right of the t-shirt, there is a text block that reads "BLUE T-SHIRT / Medium Size" followed by a paragraph of Lorem Ipsum text and a blue "BUY" button. Below the preview, there is a control panel with a "New layer" dropdown set to "Text Layer", a "Slide duration" input set to "3", and an "Exit preview" button. At the bottom, there is a timeline editor showing a 00:01:49 duration. The timeline has a red vertical line at 1s and a dashed vertical line at 3s. The timeline is divided into 1-second intervals from 0s to 9s. Below the timeline, there is a list of layers with their respective durations and positions:

Layer Name	Duration	Position
T: name	0s - 1s	0s
T: price	0s - 1s	0s
T: size	0s - 1s	0s
T: text	0s - 1s	0s
btn	0s - 1s	0s
top hotspot	0s - 1s	0s
right hotspot	0s - 1s	0s
bottom hotspots	0s - 1s	0s
