

The 13th International Barley Genetics Symposium will be held in UL Academic Centre, University of Latvia – <https://www.akademiskaiscentrs.lu.lv/en/>. This building is located on the right bank of the river Daugava, in Pardaugava, which is a half-hour walking distance to the Riga Old Town.

The University of Latvia consistently retains the position of the national, leading and most influential higher education institution in Latvia. In terms of the total number of students, the University of Latvia is also the largest university in the country. It is the largest comprehensive university in Latvia with a prominent standing both in the development of the entire education system and in the overall growth of the country's economy.

The symposium plenary sessions will be held in “Magnum Hall”, with the capacity to seat 300 people.

Poster sessions will be held in UL Academic Centre HOUSE OF NATURE – COURTYARD.
